

THE FIRST SUSTAINABLE STRUCTURE FABRIC SOLUTION

Making a positive impact on people and the planet

Intertape Polymer Group is excited to announce that NovaShield® is the first Membrane Structure Fabric in the world to achieve Cradle to Cradle (C2C) Certification!

CRADLE TO CRADLE CERTIFIED™ Products Program is a globally recognized protocol for product designers, manufacturers and brands as a pathway for making products with a positive impact on people and the planet. To receive certification, products are assessed for environmental and social performance across five critical sustainability categories:

1. Material health
2. Material reutilization
3. Renewable energy
4. Water stewardship
5. Social fairness

SUSTAINABILITY HIGHLIGHTS:

- First Structure Membrane Fabric in the world to be Cradle to Cradle Certified
- Achieved Cradle to Cradle Certified Bronze level for Structure Membranes
- LEED Credits

THE CERTIFICATION COVERS THE FOLLOWING PRODUCTS:

- NovaShield® RU88X-6 400
- NovaShield® RU88X-6(FR) 400
- NovaShield® FRU88X-6 400
- NovaShield® RU ELITE
- NovaShield® FRU ELITE
