

# TAPE, THEN PAINT WITH CONFIDENCE.

## PG505

- Indoor paint contractor industry staple
- Excellent balance of quick stick, panel adhesion and holding properties
- Not recommended for outdoor exposure

## PT8

- Removes cleanly from most surfaces up to eight days after application even when exposed to direct sunlight
- Resistant to humidity and paint bleed through
- Light green crepe paper backing

## PT14

- Features IPG's patented Bloc-it® Clean Line Technology
- Clean removal up to 14 days, even with direct exposure to sunlight and high humidity
- Fine crepe paper backing provides excellent paint lines, cornering and unsurpassed conformability
- Typical applications include outdoor masking of woodwork, glass and metal surfaces
