HEXCELWRAP™

INTRODUCING HEXCELWRAP™, A REVOLUTIONARY PAPER BASED FRAGILE WRAP THAT IS PROVEN TO REDUCE DAMAGES!

HexcelWrap™ is an innovative, patent-pending cushioning material that offers substantial benefits over traditional wrapping materials, including bubble, bubble-on-demand, foam, and other paper materials.

It provides significant return on investment for end users, including damage reductions, pack time efficiencies, and less packaging materials to process an order. There is potential to use smaller box sizes to net cube savings. HexcelWrap™ is space saving, sustainable, and results in increased customer satisfaction and retention.

*Paper also available in white.

FEATURES & BENEFITS

- Easy-to-use paper-based cushioning that exceeds protection rates of traditional fragile wraps
- Use to wrap and protect glassware, cosmetics, electronics and anything fragile
- 100% Sustainable
- Increases overall operational and pack efficiency without the need for automation
- Secures multiple products in a box and eliminates the need to use redundant packaging materials to secure and protect your products during transport
- SAVE SPACE in your warehouse and pack stations
- Stop shipping air and eliminate plastic waste
- Speed up your packaging process - up to 50% faster than traditional methods
- Small footprint and many options to integrate at your pack station
- Perfect for SFS and fulfillment operations
