NovaSeal[®]
BRAND

AP ROOF UNDERLAYMENT

SPECIALLY DESIGNED FOR TILE, SHINGLES, AND SPECIALTY MATERIALS

NovaSeal[®] AP roofing underlayment features a unique walking surface that grips tools and equipment better than the leading brands. It is 6x lighter and 17x stronger than organic oil saturated felts. Backed by a 40 year warranty.

FEATURES & BENEFITS

SLIP RESISTANT

- Superior grip on top and backsides
- Creates a safer work environment by preventing tool slippage
- Improves installation productivity

STRENGTH

- Superior wind uplift resistance
- Strong and pliable material that performs in the most extreme of temperatures
- Rolls out flat and will not wrinkle, crack or leach
- Withstands UV exposure for up to 6 months

MANUFACTURING

- Contributes towards various LEED points
- Manufactured in Canada

INSTALLER FRIENDLY

- Fabric marked fastener locations
- Superior tear and puncture resistance
- Fewer repairs and waste
