USC 2024-BB

UNIFORM SEMI-AUTOMATIC BOTTOM BELT CASE SEALER

IPG's Interpack™ USC case sealers are part of the USA SERIES Uniform Semi-Automatic family. The USC 2024-BB is a bottom belt drive case sealer designed and constructed for low to medium volume applications. This adjustable, operator fed machine processes same sized RSC style cases.

Every Interpack case sealer comes with an ET 2Plus tape head with adaptive technology to provide optimal tape application and wipe down to each of the three taped panels of the case.

When you compare features, benefits and value, Interpack case sealers are the right choice for operators, plant engineers, maintenance and purchasing.

FEATURES & BENEFITS

- Economical bottom belt drive
- Twin 3" belts for improved traction versus the competition
- Simple tool-free belt change design
- Self-tensioning and self-centering belt drive
- Standard 1/3 HP gearmotor to process heavier cases
- ET 2Plus tape heads
- Self-centering side guides for easy and simple case size set up
- Standard in-feed and exit tables extend the case processing area

These machines are engineered to provide:

- Economical cost
- Compact footprint to conserve valuable floor space
- Ergonomic, user-friendly operation and case size set up
