

VCI Slider Zipper Bags provide the most efficient and reliable way to protect hand guns, rifles, fire arms and ammunition against rust and corrosion. They are highly reliable and easy to use; the slider zipper is a convenient way to close or open the bag. VCI Slider Zipper bags are made with the latest polymer technology and impregnated in low temperature with vapor corrosion inhibitors (VCIs) to protect ferrous and most non-ferrous metals from corrosion. VCI Slider Zipper bags provide superior corrosion protection, protecting metal parts against the corrosive effects of moisture, salt and other contaminants in storage or transit.

LONG TERM CORROSION PROTECTION

The slow release vapor action protects the exterior as well as hard-to-reach interior surfaces. It is self-healing and will provide 24 months of long-term protection for storage and overseas shipments. Simply pack the metal object and seal the bag. The VCI on the film volatilizes and migrates with air then condenses on all metal surfaces, reaching all exposed and recessed areas.

FEATURES & BENEFITS

- Easy to open and close
- Reusable & Recyclable
- Transparent for easy inspection
- Eliminate cleaning after storage
- Metals protected: Carbon steel, stainless steel, copper, brass, aluminum, silver, galvanized steel

MARKETS

- Automotive
- Aerospace
- Electronics
- Military
- Oil & Gas

PRODUCT APPLICATIONS

- Fire Arms
- Ammunition

VCI2000® also available in a variety of forms such as: VCI Bag, Zipper Bag, Gusset Bag, Heat Sealable Bag, Recloseable Bag, Anti-static Bag, Shrink Bag, Bubble Bag, Foam Bag, Wicketed Bags, Film and Custom Size Bags.
VCI2000® Bags offers excellent protection for ferrous and non-ferrous metals.

VCI2000® Bags are 100% Nitrite Free.

Comply with: NATO # 6580.32.076.1091, MIL-PRF-22019E & MIL-PRF-22020E
