NovaSeal[®]

BRAND

PREMIUM ROOF UNDERLAYMENT

SPECIALLY DESIGNED FOR TILE, SHINGLES, METAL, SLATE AND SHAKE

NovaSeal[®] Premium is a superior two-side coated roofing underlayment featuring a patented, textured anti-slip surface. It is 5x lighter and 20x stronger than organic oil saturated felts and is backed by our Lifetime Warranty.

FEATURES & BENEFITS

SLIP RESISTANT

- Superior grip on top and backsides
- Creates a safer work environment by preventing tool slippage
- Improves installation productivity

SUPERIOR STRENGTH

- Durable, woven construction holds up to rugged tile, metal and slate installs
- Strong and pliable material that performs in the most extreme of temperatures
- Will not crack or dry out under metal or tile
- Withstands UV exposure for up to 12 months

MANUFACTURING

- Contributes towards various LEED points
- Manufactured in Canada

INSTALLER FRIENDLY

- Fabric marked fastener locations
- Superior tear and puncture resistance
- Fewer repairs and waste
- Eliminates tarps or dry-in materials
