HB296

BLACK DOUBLE-COATED PET FILM TAPE

INTERTAPE POLYMER GROUP®

TECHNICAL DATA SHEET

DESCRIPTION

0.5 mil polyester (PET) film coated on both sides with pressure-sensitive acrylic adhesive. Provides exceptional opacity and shear strength, moderate adhesion, excellent temperature resistance and good initial tack allowing immediate/permanent bond to a variety of surfaces (including irregular and porous surfaces). Resistant to chemicals and UV. Highly recommended for LSE surfaces. Features an easy release, 6 mil glassine liner 80# (white).

Product is not repulpable.

PRODUCT APPLICATION

Opaque black color offers resistance to light penetration. Ideal for light shielding for bezels/ monitor frames. For bonding ABS and PP plastics for industrial applications. For laminating rubber and EPDM materials for sealing/gasketing. Fastening decorative trims such as PVC and PU profiles for the furniture industry. Can also be used for many applications that requires the joining of two surfaces.
