

# **Exlfilmplus** SHIELD

IPG's new Exlfilm*plus®* SHIELD is a polyolefin shrink film designed to conceal the contents of wrapped products. This heavy-duty film can be used to replace expensive corrugated containers.

#### **SUSTAINABILITY**

- Contains certified post-industrial recycled content
- Qualified for the How2Recycle store drop-off label
- Made in a certified zero waste facility
- Cradle to Cradle Certified<sup>®</sup> Silver

#### **FEATURES & BENEFITS**

- Fully opaque gray film maintains the confidentiality of sensitive documents and high dollar products
- Eliminates the corrugated container and void fill when packaging items strong enough to withstand the rigors of shipping
- Designed for fulfillment houses and e-commerce shippers delivering product to the consumer
- High speed pack off for improved output rates and lower labor costs
- Crosslinked Technology provides consistent sealing and shrinking
- Printable for enhanced marketing opportunities

Box and void fill add to the packaging and dim weight costs of each item shipped.

The same product packaged in Exlfilm*plus®* SHIELD reduces packaging and dim weight shipping costs.

## **PRODUCT APPLICATIONS**

- Wrapping of confidential items such as insurance policies, annual reports and other sensitive documents and deliveries
- Concealment of high dollar products, eg. highend auto components, electronics or jewelry
- Packaging of items that can withstand the rigors of shipping without the corrugated container, eg. shoes
