

CLARO™ OPAQUE

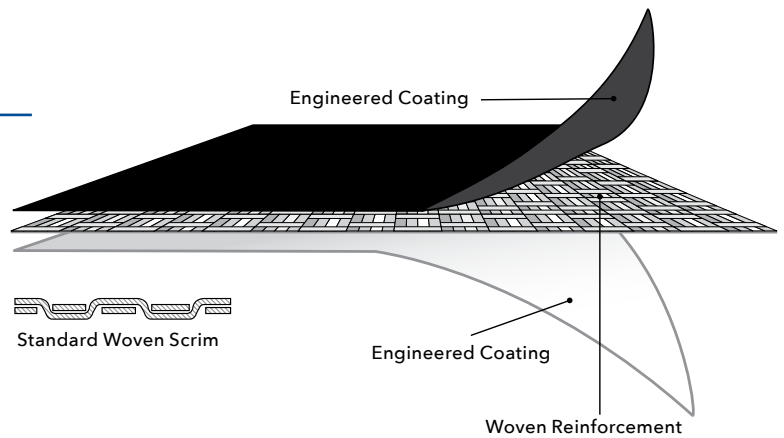

STRONG AND DARK!

Claro™ Opaque is strong, yet flexible fabric that eliminates star-lighting and gives a truly blackout experience. Claro Opaque is woven from high density polyethylene slit tapes and coated with an exclusive process to ensure blackout stays dark in a medium weight cover.

FEATURES & BENEFITS

- Enhanced UV protection for longer service life
- High strength-to-weight ratio
- Lightweight material making installation easier and faster while reducing cost
- Proprietary coating provides heavyweight blackout properties in a medium weight cover
- Dirt repelling LDPE coating
- Excellent tear resistance
- 5 year limited warranty
