

DOUBLE-COATED PE FOAM TAPES

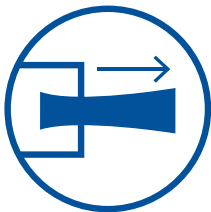

**B4180, N2208, N2215, N2230,
R2208, R2215**

IPG® double-coated foam tapes provide strong, long-lasting bonding performance for a wide range of mounting and assembly applications. Their conformable crosslinked PE foam construction adheres securely to irregular and contoured surfaces while helping to cushion, fill gaps, and accommodate surface variations. Designed for easy application and durable indoor and outdoor use, these tapes can reduce or eliminate the need for mechanical fasteners while delivering reliable performance in demanding environments.

FEATURES & BENEFITS

Double-coated
permanent bonding
adhesive

High tack & shear
strength

Easy-release liner for
simple application

Available in acrylic
& rubber adhesive
options

Environmental
resistance options (UV,
heat, chemical, solvent)

Rubber Adhesive with
White Liner

PRODUCT APPLICATIONS

- Nameplate, sign, plaque, and display mounting
- Long-term indoor and outdoor bonding/mounting
- Permanent trim and mirror attachment
- Metal and plastic repair and assembly
- Household and bathroom accessory installation/repair
- Vibration dampening and cushioning
- Window glazing applications

MARKETS

- Building & Construction
- Converting
- General Manufacturing
- Transportation
