

E-CO FLEX FORMING

MULTI-SIZE CASE ERECTOR FOR FEFCO 0201 (RSC) OR FEFCO 0200 (HSC) BOXES

MACHINE HIGHLIGHTS

- Capable to erect **FEFCO 0201 (RSC)** or **FEFCO 0200 (HSC)** cases
- Able to process **single-flute** or **double-flute** cardboard
- Up to 12 different box formats
- Compact footprint
- ID label application (optional)

The **E-CO FLEX FORMING** module is a compact footprint multi-size case erector for both **FEFCO 0201** and **FEFCO 0200** boxes, equipped with the widest case magazine on the market and supporting **up to 12 different box formats**. A more compact version is available, featuring **6 cassettes**.

At the core of the system is an intelligent size-selection module that identifies the most suitable case format for each order based on cubic data received from the WMS, ensuring optimal use of packaging materials and minimizing empty space inside the box.

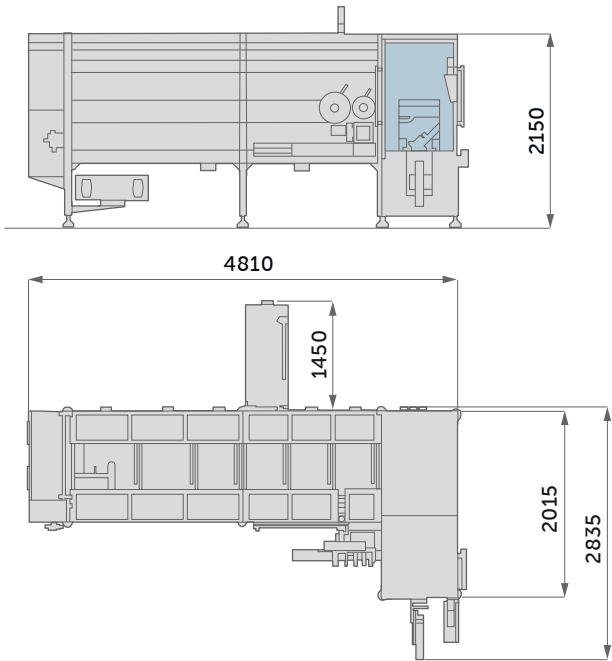

To keep production flowing without interruptions, the machine continuously monitors cassette levels: when a cassette is empty, it automatically switches to the next best-fit format, while an LCD notification alerts operators that replenishment is needed.

Once erected, the case can be bottom-sealed using **Water-Activated Tape (WAT)** or pressure-sensitive tape, ensuring secure and tamper-evident closure. A barcode can be assigned to the package, either via label application or direct printing on the corrugated surface, depending on process requirements.

TECHNICAL DATA

E-CO FLEX FORMING

E-CO FLEX FORMING	
Machine dimensions	189" x 111" x 84" (4810 mm x 2835 mm x 2150 mm)
Throughput speed (cases per minute)	Up to 10 CPM
Installed power	400V, 3PH + GND, 50Hz 480V, 3PH + GND, 60 Hz 10 A
Air	Pressure 6 bar (87 psi)
Adhesive Technology	Water-activated tape or paper/plastic pressure sensitive tape
Corrugated box opening orientation	Left hand/Right hand

CASE RANGE (INTERNAL DIMENSIONS)	
Min case (L x W x H)	7" x 6" x 3" (178 mm x 152 mm x 76 mm)
Max case (L x W x H)	21" x 15" x 13" (533 mm x 381 mm x 330 mm)
Box type	FEFCO 0201 (RSC) or FEFCO 0200 (HSC)
