T700

HIGH PERFORMANCE SANDBLASTING TAPE

Anchor T700 sandblasting tape is engineered for reliable performance in light abrasive blasting applications, combining a durable natural rubber backing with a high tack acrylic adhesive system. The flexible, conformable construction adheres securely to irregular surfaces and contours while resisting abrasive media, helping to deliver clean edges, dependable protection, and precise blasting results.

Anchor delivers the latest in Single Liner for your monument needs!

FEATURES & BENEFITS

Durable natural rubber backing with a high tack acrylic adhesive for secure adhesion and reliable protection

Flexible and conformable construction that adapts easily to irregular surfaces and contours

Resistant to abrasive media, delivering clean edges and precise blasting definition during light blasting operations
