

ENVIRONMENTALLY FRIENDLY WATER-ACTIVATED TAPE FROM CENTRAL®

CENTRAL WATER-ACTIVATED TAPE

-  We only source paper from Certified fiber sources: FSC, SFI and PEFC.
-  Reinforced tapes now contain min 4% recovered fiber with the same great performance we have always provided with Central branded WAT.
-  Paper tapes (non-reinforced) are recyclable and repulpable.

CERTIFIED FIBER SOURCING

Central brand WAT sources paper exclusively from chain-of-custody certified suppliers. Sourcing paper from a certified paper supplier ensures they utilize best-in-class management practices such as:

-  Encouraging landowners to reforest after land has been harvested.
-  Protecting water quality, wildlife habitats, endangered species and unique & special cultural sites.
-  Creating healthier forests through reduction of pathogens and invasive species while providing for multiple uses to occur simultaneously.
-  Utilizing third party auditors to review their procurement process to verify our suppliers are true to their commitments.
