Uniform Semi-Automatic Case Sealer

Interpack's USA Series Case Sealers are adjustable, operator fed machines that process same sized RSC style cases.

Every Interpack™ Case Sealer comes with an HSD 2000-ET II tape head with adaptive technology to provide optimal tape application and wipe down to each of the three taped panels of the case.

When you compare features, benefits and value, Interpack™ Case Sealers are the right choice for operators, plant engineers, maintenance and purchasing.

These machines are engineered to provide:

- Industry leading features
- Heavy duty construction for 24/7 operation
- Ergonomic, user-friendly operation and case size set up

Scan for more information on Interpack's USA Series, including CAD drawings, manuals and videos!

FEATURES & BENEFITS

- Side belt drive processes a wider range of cases
- Side belts capture the case between 2 moving belts reducing the force on the case
- Twin 1/3 HP motors for 24/7 operation
- Dual column for maximum processing stability
- Slide & lock upper head simplifies case size set up
- Selectable floating upper head processes mild overfills
- Offset tape heads process cases as low as 2" tall
- Reversible controls for left or right handed operation

Available in food grade 302/304 stainless steel and NEMA 4 electrics with stainless steel HSD 2000-ET II taping heads.
